Thanks, Felicia! I will send out an invite for a scoping call for tomorrow for 10:30am Pacific. That's the time Harry has requested.

Mike

Hi Richard

Please find attached new work assignment (#64) to provide statistical evaluation of Region 9 surface water data related the Gold King Mine Spill. The evaluation will support Navajo Nation decisions. The first sample data is also attached.

As you may be aware this is an emergency response with a high priority.

**CBI/Ex. 4** and there is “as soon as possible” timeline for the first data evaluation. More data is expected as time passes. Mike Gill will set up a scoping conference call for tomorrow with Region 9.

If there are any questions, please contact me.

Thank you.
